And many more...

FVE in DEC

Bridging the gap
between theory and practice

Connecting between
different projects

Bringing the project
results to policy makers
and stakeholders

Bridging the gap between theory and practice

➤ Technical Notes

Transformation of the main outcomes of the project to 10 technical notes to be used by Farmers and vets, in different EU languages

Connecting between different projects

“ArMoR –fighting Antimicrobial Resistance in livestock farming”: together with other EU projects we formed a Project Group named “ArMoR”

Bringing the project results to policy makers and stakeholders

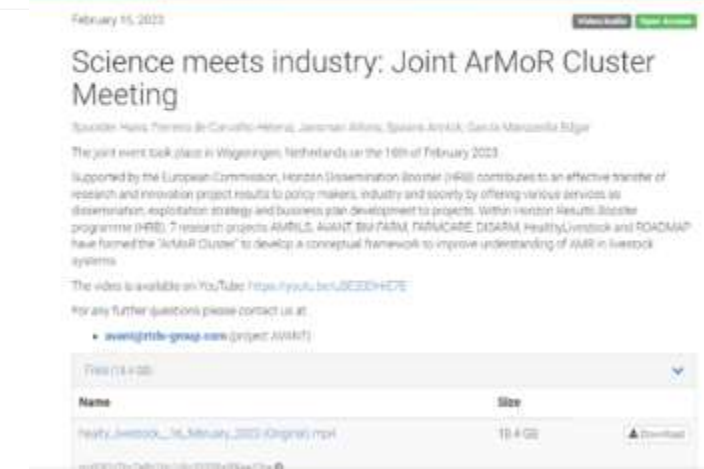

➤ Policy advice

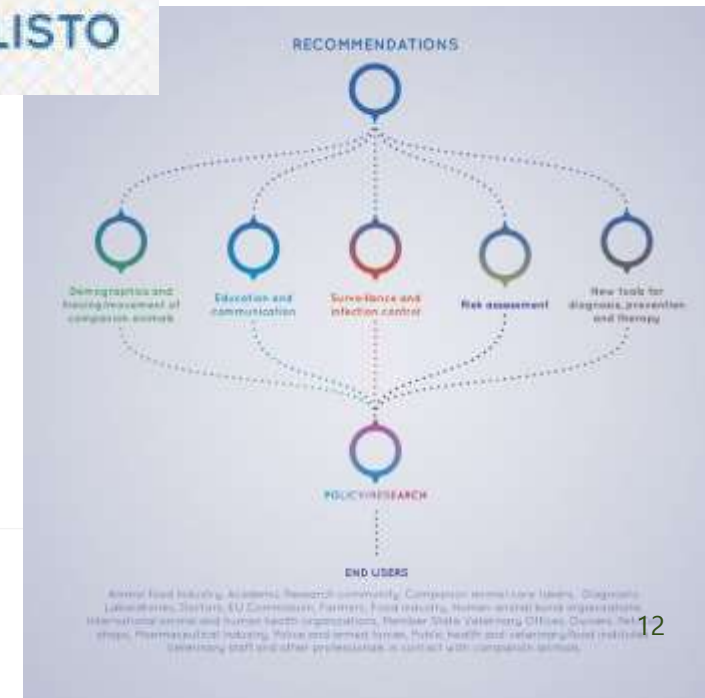

Aimed at European Policy Workers, consist in executive summary with the main conclusions of the project

E.g.
European Platform on Animal Welfare.
European Regional and Sub-Regional representations of the World Organisation for Animal Health (WOAH).
National government where partners has direct and formal role as advisors
EC, EMA, EFSA..

- Identifying the different categories of stakeholders and their needs
- target audience and end users
- Communication Channels: newsletter, website , social media networks
- Applying the projects knowledge in training courses/ workshops/ conferences
- Policy advice in European policy workers

CALISTO Project : Companion Animals multisectoral interprofessional and Interdisciplinary Strategic Think tank On zoonoses

2012-2014

Risks of zoonotic infectious diseases associated with companion animals

the role of companion animals as a source of infectious diseases for people and food

Animals targeted actions to reduce the risk of zoonotic diseases transferred via companion animals

DEC: seven Expert Advisory Groups (EAG), consisting of experts in complementary fields of interest that met at regular intervals in order to exchange perspectives, knowledge and ideas and to produce expert documentation that serves as input from the specific EAG to the CALLISTO Conferences

EAG User Community, EAG Policy Actions; EAG Zoonotic Viral Infections; EAG Zoonotic Bacterial Infections, EAG Zoonotic Parasitic Infections, EAG Epidemiology and underlying factors, and EAG Sociology and Welfare

Transport Guides – Pilot project on best practices for animal transport

2015-2017

- Development of Guides to Good Practice on the transportation of livestock species (horses, poultry, pigs, sheep and cattle) in the EU
- End users and Stakeholders - companies and drivers, competent authorities, farmers, NGO's and vets.
- Disseminate of the guidelines through the networks of the main European stakeholder groups involved (workshops/roadshows)
- Impact assessment questionnaire
- Impact on EFSA (Opinion on Guidelines), EC (transport regulations)
- [EC website](#) with the project's material

Actions to help a better impact

- Using the partners network and influence
- Identification of the target audience- who is to be informed/ influenced
- stakeholder and policy workers engagement from the beginning as well as during the research activities
- key message of the research findings in a way that captures policymakers' attention
- Clear on problem and solution /innovation
- Appropriate packaging of the key findings of the project , targeted for the different audiences
